Professional Profile

Frontend Developer

Frontend Developer with a strong focus on responsive web interfaces, UI/UX design and Figma-based workflows. Skilled at turning layouts, components and visual concepts into clean, user-friendly websites using HTML, CSS, JavaScript, Tailwind CSS and Vite. Comfortable working across both design and development, with practical understanding of visual hierarchy, spacing, accessibility basics, responsive behavior and clean frontend structure.

UI/UX Designer

Strong practical proficiency in Figma and UI/UX design, including Auto Layout, components, variants, responsive frames, wireframing, prototyping and design-to-development handoff. Able to create clean, structured and visually consistent interfaces, then translate them into responsive frontend implementation.

Combining UI/UX design and frontend development through a practical design-to-code workflow.
